<u>Revenue Producing Bright Ideas to be presented on 8/8/13</u>			
<u>#</u>	<u>Idea</u>	<u>Name</u>	<u>Dept</u>
1	Marketing Idea - I believe it would be beneficial to let the guest/traveler know that we are the last free exit for the next 104 miles since the glass house (McDonalds over the road near Vinita) is going to be closed for the next 6-8 months for repairs. We could advertise it on the electric billboard on I-44. Maybe you could offer free play for bringing in toll receipts.	Crystal Scott	Hskpg
2	We should put in a change machine similar to a Coinstar. Instead of exchanging coin for bills, it would give out tickets. That way people would have a way to play their coin, and it would take the burden of counting buckets of coin off the cage personnel.	Nathan Hurley	Slots
3	Downstream needs promotions late at night like \$1,000 Hot Seats from 2-6am.	Carey Big Eagle	Hskpg
4	We need a catchy marketing slogan to compete weith "We are in the black and paying it back." I came up with "come to downstream and live the american dream". Then focus on the "hosue" that was waon and the cars, boats, diamonds and money. Also, focus on the dream of living the good life: relaxing at the pool, the spa, golf, red oak, luxury rooms, etc.	Mary Cabalero	Finance
5	Make Buffalo Grille a smoke free casino area (slots & table games) instead of a restaurant.	Susie Belcher	Finance
6	It would genereate more interest by using the new slot machines in a marketing campaign.	Dee Baptista	Finance
7	Turn Buffalo Grille into a club to attract the young crowd and I'd like to be a bartender.	David Westfall	coffee shop
8	Have a mystery room that has free play to get more people to stay.	David Westfall	coffee shop
9	Kids Quest, so parents can bring their kids in while they can gamble. I used to go to the one in Louisiana when I was little. It was like \$20 a day and they had games, movies, and a giant play gym inside	David Westfall	coffee shop
10	It would be a great idea for our company to buy our own equipment for our own buffalo. Bailign our own hay would be cheaper. It would save money in the long run as we would be workign on our own land waith our own equipment.	Dustin Riner	Facilities
11	Mad Hatter. Come in wearing your favorite hat, crazy hat, ugly hat or your own creation. Free \$10 Q play. Take pictures of the most outrageous nad pick out first \$100 Q play, second \$75 Q play and Thirs \$50 Q play.	Belinda Crockett	Facilities

## WorkPlace Bright Ideas to be presented on 8/8/13

#	<u>Idea</u>	<u>Name</u>	<u>Dept</u>
9	Add a gym here for our employees to promote healthy.	David Westfall	coffee shop
10	Ceiling fans over the BJ pits. Help alleviate smoke and cool dealers off. Each year someone has passed out from heat exhaustion.	Danielle Payton	Table Games
11	I believe that we should get rid of the permit stickers and go with something a little easier for everybody. Would like to see some like handicap signs, the one you hang from your mirrors and we could use those for everyone and put their badge on the signs.	PJ Attocknie	Security
12	Better vending machines in the E.D.R. Perhaps with sandwiches	Ed Tyner	Valet
13	I believe that the age restriction should be removed for the indoor pool. I have been confronted by multiple guests that were upset and angry that their children couldn't swim. I know the casino is our major attraction & that targets an older crowd but we are also a resort and that would help accomodate those that bring their kids for that part.	Joshua Lance	Facilities
14	Implement an inter-office messnger system (i.e. MSN messenger). Not only will it cut down emails dramatically, which will help reduce the load on the servers, it will speed up workflow, yet could still be monitored by IT. Seen this used in offices before and is great.	Kyle Stearns	Marketing
15	Arrows need to be painted on road. People always drive up the one ways.	Ed Tyner	Valet
16	To put a shelf in the bathrooms where guests can put their drinks in until they get done using it.	Loreen Watkins	EVS
17	Table Games training videos should be made, showing exactly what proper procedures are on all games. A video would make a company standard for all shifts. There is too much personal interpretation of written material which makes it confusing on what procedure is.	Carrie Kobs	Table Games
18	Sorry to bring this up again, but I really think a L.E.D. light that displays the players name. We can NOT hear the names in Pit 1 plus it will keep players at the machines. This idea is for promotional days.	Peches Kight	Table Games
19	There should be two clearly distinguishable lines at the cashiers cage overnight. A sign would be great. This would alleviate some of the long line problems.	Cody Elbert	Slots
20	Provide "Kid Safe" ID cards for the children of tribal members, casino team members, etc. The cost is minimal to produce. Start up costs would be somewhere around \$8,000 depending on your choice of software and printer. From then on would be for your supplies	Belinda Crockett	Facilities
21	In both towers - need to create a way like barcodes and scanners to keep track of inventory so that there is less overstock, and we can keep track of the things we need.	Ethan Millard	Hskpg
22	A bookcase in the EDR to facilitate book exchange between team members - the likelihood is that 2 8-10 shelf bookcases would not be enough.	Bob Sparks	Poker
23	WIFI for employees in EDR	anon	
24	we need engraved wet floor signs posted on walls of all public vending areas in the hotel	Anna Lewis	Hskpg
25	Supervisors should run a labor/cost report every hour and should have to stay under a certain profit/labor percentage. It would curb overtime and make employees a little more content instead of standing around.	Rosey Dickey	Beverage
26	Put stickers on EGMs that say "Please don't abandon tickets" and put boxes on the floor for customers to put their tickets they don't want in.	Josh Nichols	Security
27	I think that Downstream should put the Visa \$100 and \$50 gift cards as an opinion for the Christmas shopping thing. It would give team members more options for places they can buy things.	Keven Jones	Security
28	It would be very beneficial to management if the smoke area swiper was hooked to Kronos so that extra smoke breaks that are unauthorized be monitored. It would also help if the smoking area was lit up at night so you can see if someone is out there when they are not supposed to be.	Betsy Kissel	Slots
29	it think it would be cool if DCR had their own greenhouse and served their own fruits and vegetables. The produce would have a much better taste, would be healthier, and would save on shipping costs. All the waste that we throw away could go into a compost to make our soil even better. If there were ever an abundance of produce that could go bad before it is served, could be sold to DCR employees. As a person that eats mostly fruits and vegetables I would look forward to eating food that I knew where it came from and that it was a healthier choice. I would also be more apt to buying my fruits and vegetable here instead of a grocery store and would feel good about recycling the compost for a better environment and healthier lifestyle	Betsy Kissel	Slots

30	Offering the team members to have family pictures taken when the learning center has a photographer on property for the children's pictures. Payroll deducted of course!!	Dee Baptista	Payroll
31	Many guests leave things behind in hotel rooms and think . . . Oh somebody's got it by now (taken it) not knowing our GRAs call it in as a "lost and found" item or call security. It's held for 30 days. Is there any way they could make a note (tent card) to leave in the rooms saying " if you think you've left something behind no matter how little or petty please feel free to call and check our lost and found dept." a lot more stuff will get picked back up.	Tedra Prater	Hskpg
32	A place where non-smokers can go to get fresh air on the other side of the hall would be great!!	Mary Butler	EDR
33	In Kappa tower they need to make the chute so that it is straight down so it will stop clogging and you can push the cart underneath it to catch laundry	Ethan Millard	Hskpg
34	Stork parking for employees that are 7, 8, and 9 months pregnant.	Danielle Payton	Table Games
35	When it's nice out and everybody rides motorcycles to work there is not enough space for them all. Maybe expand the spots and shade for them, the sun heats up the asphalt and kick stands sink maybe causing the bike to fall.	Terry Reed	Table Games
36	To save money switch to a cheaper tampon and to be more eco friendly use cardboard instead of plastic.	Samantha Leeson	EVS
37	Downstream needs to bring in boxing \$\$\$	Correen Sumagpang	Finance
38	Use our tokens for bowling	Correen Sumagpang	Finance
39	A hat or tee shirt for progressive winners on 3 and 4 card and UTH would be cool	Danielle Payton	Table Games
40	Build a gym here on property instead of paying fees to other facilities have our own. We could work out before or after shifts and better utilize the money spent on wellness.	Morgan Harris	Red Oak
41	Since we have cut down to only one band at Legends on Saturday nights I have noticed a significant drop in customers. I am on the casino floor all the time and this has disturbed me. I would like to suggest putting 2 bands back on Saturdays to increase our customer volume.	Patty Kennedy	EVS
42	I continually have people ask me why there isn't a walking trail on the premises and I believe that's a good idea and I believe the perfect spot would be in the area the facilitais dept calls the football field.	Ed Tyner	Valet
