Tribal Spotlight

INDIAN DICE

Throughout Downstream there are tribal designs incorporated into the building, artifact displays, artwork, and even photographs which help paint a picture of our history and culture. Around the poker room are paintings of a game we refer to as "Indian Dice".

Indian Dice is a game often played at Quapaw gatherings still today. The game consists of a thin wooden bowl about ten inches in diameter and 8 bone dice pieces. The dice pieces are cut and carved out of rib bones and consist of 6 round disk shaped pieces and two "animals" which are usually carved to represent things such as eagles, turtles, water birds, horse heads, buffalos or other significant designs to the owner such as teepees. One side of each piece is painted and the other side is left the natural color. Each person will take turns shaking the bowl filled with bone dice pieces and will score points based on how each piece lands (how many pieces are color side up or down).
